

DORMIE 9

SMARTER SURVEILLANCE
SAFER SPACES

Leading Technology

Enhancing your existing CCTV setup with smart, high-impact results—no disruption, no replacements.

Strategy Development

We collaborate with you to design a smarter surveillance solution tailored to your specific environment.

Turn-key Solution

Our team handles installation, AI configuration, and ongoing support to ensure seamless system integration.

Dormie 9 is an Australian-owned technology company offering advanced AI surveillance solutions. Our mission is to make AI-driven technology simple, effective, and accessible for everyday environments.

Our flagship product, the SENTINEL, is a plug-and-play upgrade that offers an intelligent monitoring system that delivers real-time alerts and insights, helping businesses reduce manual oversight, optimise staffing, and respond quickly to risks.
